IMPORTANT ARTWORK GUIDELINES TO READ BEFORE YOU UNLEASH THE ARTISTIC TALENT!

FILL THE PAGE

Designs that fill the entire page create the most striking printed goods. Keep crucial elements, especially text, away from the edges. Designs can be portrait or landscape.

PHOTO FINISH

If using photos, avoid glossy finishes as they can reflect light during scanning.

FIXATIVE FOR CHALK PASTELS

If you use chalk pastels, spray the artwork with a fixative or hairspray before sending it to us.

AVOID PENCIL DRAWINGS

Pencil drawings often don't show up clearly in print. Unfortunately, we cannot enhance these, and no refunds will be provided for pencil artwork.

COLLAGE

Collage artwork looks awesome when printed. Ensure collages are no thicker than 5 mm. Use materials like tissue paper or fabric and make sure everything is securely attached.

NO GLITTER

Please do not use glitter. It can mix with other artworks and damage our printing machines.

VIBRANT COLOURS

Bold, bright colours stand out best in print. Consider using paints or creating collages for the most impactful results.

SCAN ME FOR ART IDEAS AND TECHNIQUES

Use white A4 paper.
Full name and class written on back in capitals. Return to school Monday 4 November.
