

September 2014

Dear Parent/Carer,

We would like to welcome all our new pupils, and their families, to our school.

The Year 3 teachers are Miss Gower (3TG) and Miss Griffin (3HG). We also have two Teaching Assistants, Mrs Meredith and Mrs Nield, working with us.

Starting off as we intend to continue, we will be working very hard and expecting great things from our pupils. High standards are set in all areas especially behaviour, academic work and appearance, with consideration for others being a key element in our Church of England Voluntary Aided School. Children who encounter difficulties coping with any aspect of school life are sensitively helped in a variety of positive ways. We want every child to develop and maintain a high self-esteem. School uniform is an important aspect of gaining this sense of pride and we do ask parents to ensure that all pupils are correctly attired for school.

Over the next half term, Year 3 will be studying Thomas Coram and the school's connection to him. The pupils will also be following a unit of work, 'What's on the menu?' During both topics we will be focusing on Geography, History, Technology and PSHE.

In Geography, we'll be finding out:

- Where our food comes from
- How food travels to the shop or supermarket
- About different types of farming
- What happens on a local farm

In History, we'll be finding out:

- What life was like in the 17th Century and compare it to life now
- How, why and when Thomas Coram set up the Foundling Hospital
- What life was like for children in the Foundling Hospital
- How the school is connected to Thomas Coram
- How farming has changed over time

In Technology, we'll be finding out:

- What makes a tasty sandwich
- How to create a sandwich

We'll also be finding out:

- What life was like in the Foundling Hospital by experiencing a day as a Foundling
- More information about the Foundling Hospital by taking a trip to the Foundling Museum and a visit from an adult who was a Foundling and was looked after at the Foundling Hospital.
- How supermarkets work by visiting a local supermarket

The
Thomas Coram

Headteacher: Mr R Halls BA (Hons) QTS NPGH

Children will be reading, researching, writing, illustrating, working on their own and in groups. We will be checking to see how well your child has learned through particular activities and asking children to explain their work, perhaps to you.

We already know the interest you take in your child's work. If you can, please discuss with your child the work they have done as the term progresses and let them teach you.

If your child has some work to research, please help them, but without actually doing the work. If you have the chance to further their interest in the ideas of these topics please take it, but your enthusiasm and interest is most important.

By the end of the units, we hope your child will have achieved all of the learning targets. We hope they will have had an enjoyable time in the classroom and we hope you will have enjoyed seeing your child work with enthusiasm. If you have any comments about the work your child has done, please get in touch.

If you have any other questions or queries please do not hesitate to contact us either at the beginning/end of the day or via the office.

Yours sincerely,

Miss Griffin (3HG)

Miss Gower (3TG)

Year 3 Curriculum Summary 2014-15

	Autumn Term			Spring Term		Summer Term	
English/ Literacy	Traditional tales (Fables); Plays (writing and performing a play); Recount (News/sports event); Instructions (Giving directions); Poetry (free verse and limericks); Take One Book			Traditional tales (Fairy tales); Explanations; Report; Poetry (free verse and haikus; tanka and kennings); Take One Book		Adventure stories; Persuasion (letters); Poetry (free verse and poetry appreciation); Take One Book	
Mathematics/ Numeracy	Number: number & place value; addition & subtraction; multiplication & division; fractions. Measurement. Geometry: properties of shapes. Statistics.			Number: number & place value; addition & subtraction; multiplication & division; fractions. Measurement. Geometry: properties of shapes. Statistics.		Number: number & place value; addition & subtraction; multiplication & division; fractions. Measurement. Geometry: properties of shapes. Statistics.	
Science	Animals, including humans (Nutrition; skeletons; muscles)	Plants		Forces & magnets		Rocks	Light
Computing	We are planners (Creating and using graphical models)	We are programmers (Programming an animation)		We are network engineers (Exploring computer networks, including the internet)	We are communicators (Communicating safety on the internet)	We are opinion pollsters (Collecting and analysing data)	We are adventurers (Using a simulator to solving problems)
