

7 June 2017

Dear parents/carers

I am delighted to advise you that I have arranged for our Year 4 and Year 5 pupils to attend a Science Fair on Wednesday 14 June 2017. This will complement our Science curriculum learning. The event is being held at Berkhamsted Prep School, Kings Road in Berkhamsted. We will be leaving school at 9:30am and returning at approximately 12:30pm.

A full risk assessment has been undertaken for this educational visit and appropriate control measures are in place.

The children will be taking part in four workshops led by Bayfordbury Observatory staff in which they will discover the mythical legends behind the constellations in the night sky and learn about the objects in deep space. The children will also develop their reasoning skills to determine the properties of tiny particles that make up the universe and finally, the children will have the opportunity to enjoy a "make and take" task during the refreshment break.

The Science fair is funded by The Ogden Trust, a charity that promotes the teaching and learning of physics.

If you have any queries regarding the trip, please do not hesitate to contact the school office.

Yours sincerely

Miss Williamson  
Science Co-ordinator
