Online Health Assessment – September 2017

Dear Parent/Carer,

The Hertfordshire School Nurse Service has implemented a new and exciting way to assess the health needs of children. We will soon be going into your child's school and supporting all children in yr 6 to complete an online questionnaire. The online health assessment, HAPI, asks about several aspects of your child's life that can impact on their health such as lifestyle and behaviour. This enables our skilled team to make an assessment of your child's needs and offer support and advice in areas that are identified as a concern.

This assessment tool is also being used for children in reception and young people in year 9. This will enable us to capture and address the health needs of your child as they grow.

Following completion of the questionnaire, if any support or help is required from the school nursing team, we will of course contact you first to discuss this. There is further information on our website about the services we offer:

<https://www.hct.nhs.uk/our-services/school-nursing>

If you are happy for your child to complete this questionnaire then you do not need to do anything further. If you do not want your child to be included then please print and return the form below to the school office, by Friday 13th October 2017.

Yours sincerely

Sally Dussek

School Nurse Team Leader
