

3 July 2018

Dear parents/carers

Scooter Training

Scooting has become a popular way to get to school and helps to encourage active travel from an early age. Children can start to develop skills that will help with cycling such as steering, stopping and balancing. As part of our school's on-going road safety awareness education, Year 3 pupils will be receiving scooter training on Monday 9 July.

The scooter skill sessions will be delivered by a member of the Herts County Council Road Safety Team on the Lower Key Stage 2 playground, within the school grounds.

The key messages delivered are

- Keeping a scooter in good working order
- Learning to steer, stop and balance safely
- How to ride safely with consideration for others

If your child does not have a scooter or is inexperienced with scooters, it is not a problem as we are sure that some children will be happy to share their scooters so that those 'new' to scooting can still join in and learn some skills.

Please let us know, by completing and returning the form below, whether you give permission for your child's scooter to be shared.

We look forward to hearing from you by Friday 6 July.

Yours sincerely

Mrs J Cutler
Head of School
